VET TECHS HAVE WARM HEARTS
FOR COLD NOSES
Central Carolina Community College 1996-1997

Message From the Yearbook Staff

Since this is the first yearbook published at Central Carolina Community College in ten years, we the Veterinary Technology class are proud to be able to publish this yearbook for our instructors, friends, families and most of all, our classmates.

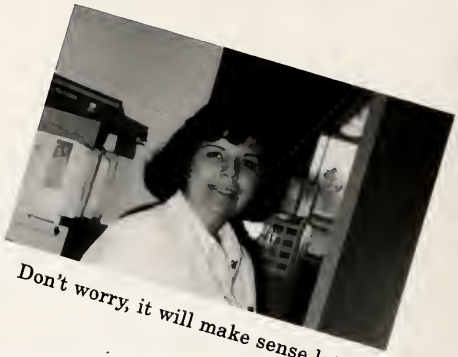
The first day of classes is far behind us in reality, but only hours or minutes away in memory. From the day of the first interview required to be accepted into the Vet. Med. curriculum, we knew what was to be expected of us, it did not stand in our way. Along with the many "duties" to be performed, we had to maintain a C average or higher in all Vet classes, this did not stop us. Early mornings cleaning the dog kennels and cat wards, did not stop us. Late afternoons in surgery or cleaning a lab, did not stop us. We had a goal we were prepared to achieve . . . and we did.

Through the many trials and tribulations, we the class of 1997 have finally made it. We have managed to have fun and many laughs along the way. We have made new friends into old friends. And along the way, thanks to the instructors, we have picked up a wealth of knowledge.

Within the pages of this book, we hope you will share the many memories that we have made together . . . as a team.

The yearbook staff
1997

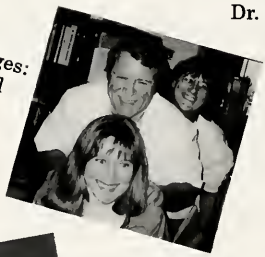
Are you with me?

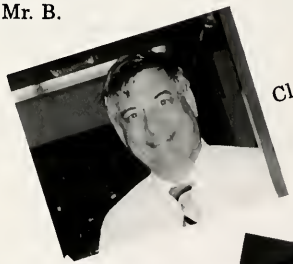


Don't worry, it will make sense later.

Dr. P., Lori, Mrs. Robinson, Sally,
Dr. K., Kim, Mr. B.

The Three Stooges: Larry, Curly, and Moe





Close that door!

TGIF!

Aloha!

I think . . . well . . . I could be wrong.

Okay, what's the problem?

Hello! I don't think so.

Ask Dr. Kuder, it's her lab.

Work study bites!

Mamas Don't Let Your Babies Grow Up To Be Vet Techs

(Sung to the tune of "Mamas Don't Let Your Babies Grow Up to Be Cowboys")

Vet Techs ain't easy to love and they're harder to scold
They'd rather give you a dog than a grandchild to hold
Scratches and bruises and old faded Levis and each day begins
With ward care
If you don't understand it, we'll tell you about it, it'll make
You tear out your hair.

Chorus
Mamas don't let your babies grow up to be Vet Techs
Don't let them pick strays up and try to play doctor, let them
be nurses
and mothers and such
Mamas don't let your babies grow up to be Vet Techs
Cause they'll never be happy with only one pet, even with one
Of each kind

Vet Techs like positive fecals and suturing owies
Little warm puppies and kitties and calls in the night
Vets that don't know us won't pay us and them that do, sometimes
Will take us for
Granted
Vet Techs ain't perfect but they're pretty close, just ask us
We'll tell you its
True

Chorus
Mamas don't let your babies grow up to be Vet Techs
Don't let them pick strays up and try to play doctor, let them
Be nurses
and mothers and such
Mamas don't let your babies grow up to be Vet Techs
Cause they'll never be happy with only one pet, even with one
Of each kind.

Dedicated to Rebecca Byrum

Becca, we your friends wish you love and luck in your future for now and in times to come. Even though you were unable to finish with our class, you will always be a part of the class of 1997.

All work and NO play?

Teacher of the Year

Always ready to answer one of our many questions in LAB TECH.

Congrats Mrs. Robinson!
Teacher of the year for 1996 - 1997

Mrs. Robinson helps Amanda and Kim with their Ma and Kvp

Thanks Lori and Kim

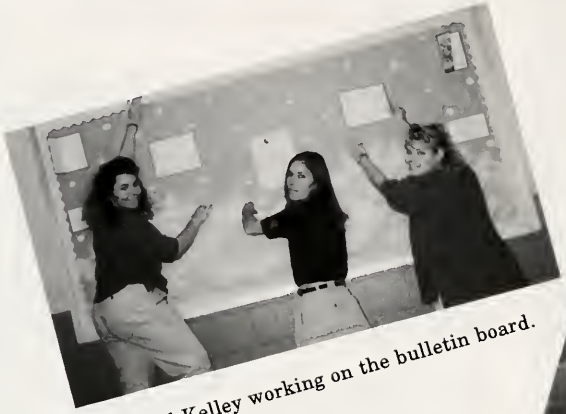
Thank you for working as a team and for being our yearbook advisors.

Thanks guys for keeping the yearbook staff straight!

If both of you think hard enough, you'll figure it out.

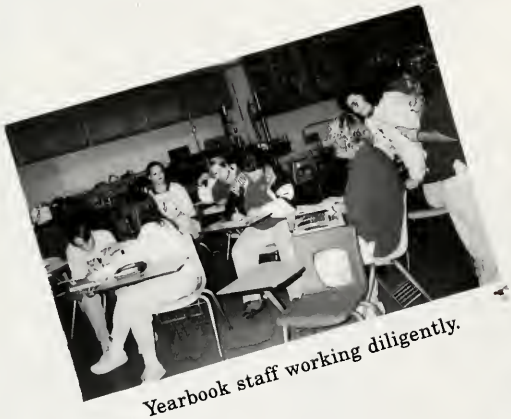
!*@#*@! Oops! They caught me!!!

Hello? What are ya doing?



Kim, Sioux and Kelley working on the bulletin board.

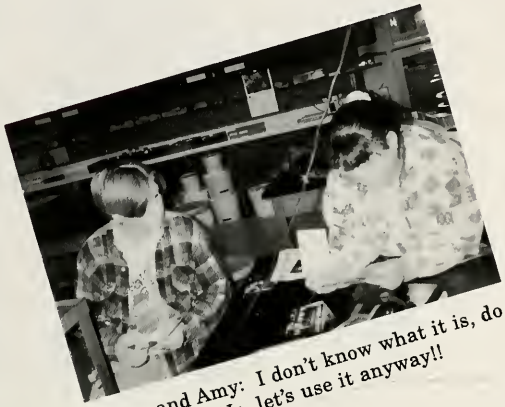
Michaela and Kim on donation delivery day.



Yearbook staff working diligently.

Are you sure this is the way you do it?

Anita and Sioux busy sorting pictures for the yearbook.



Karen and Amy: I don't know what it is, do you? No, let's use it anyway!!

Sandy on portrait day.

Kim hard at work??? Yeah, Right!!!

William Bradford

Cindy Kuder, D.V.M.

Sally McIntosh, B.S., R.V.T.

Kim Mashburn, R.V.T.

Paul Porterfield, D.V.M.

Lori Rainforth, M.S., R.V.T.

Nancy Robinson, B.S., R.V.T.

Jewel Fader and Michaela Dismann relax during lunch.

Jaime Garrard and Keara Hart talk during a break between classes.

Mona Creech, Tammy Jones and Felicia Madalinski take an enjoyable break from their studies.

Donna Tully poses for the camera.

Hear no Evil, See no Evil, Speak no Evil.
"Motto of the First Year Class"

Thanks Mama and Daddy for helping me financially throughout the Vet Med program. It know it was very hard on our family but now it's over and money is up to me now. Special thanks Dianna for being a wonderful friend and always being there to talk to. Amy and Karen, a thanks goes to you for making living at the Vita-Dorm fun and having friends to laugh with and also being (scared) with. Lastly, a very special thanks goes to Jason, who always encouraged me to study hard and reminded me why I always had to go back to school every Sunday night. Jason, thanks for your patience, and I'm glad you waited on me to finish school. Rochelle Welborn

I would like to give special thanks to my dad and my sisters. To Stacey, Kim, and Kelly thanks for giving me a shoulder, encouragement, and a laugh when I needed it. To Mr. Bradford for always believing in me. To most of all my mom for being my best friend and standing behind me the entire way. Stephanie Anspach

I would like to thank all of the Vet Med instructors for their knowledge, understanding, and most of all, for giving me the courage to believe so I can become a successful professional in Veterinary Medicine. Karen Lloyd

Thanks Mommy, Daddy, Chris, and Heya for all of your very encouraging words!! Thanks Beavis and Buffett for helping me study! And most of all, thanks to all of the Vet Med instructors and resident cats and dogs. For without you, all of us wouldn't be so proficient. FM2

Thanks to anatomy for allowing me to end up with the class of 1997. Thanks to my parents for putting me through school and putting up with me for 21 years. Thanks to my instructors who at different points became my friends. Kim McCurry

Thank you, Mona, for all your patience, knowledge, and guidance when I needed it the most. You were always there; I'm forever grateful. Susan Weatherford

Felicia and Dianna, thanks for your help. Lisa Feyen

I would like to thank Jennifer Gray for being a great friend and (partner in crime!) I will miss you after (CALI)! Wendy Patterson

I want to thank Sheryl Tolley for being such a great friend and for helping me get through these past two years. Good Luck to Sheryl Tolley and Candice Ambrose. I would like to give special thanks to all the instructors and my husband, Michael, for their support and encouragement. Mona Creech

Thank you Cathy for being such a good friend. Best wishes in all you do. I would like to thank all the teachers for not giving up on me through the years. That means a lot to me. Thank you. Hope Voliva

I would like to thank my huband, Gene, and my parents for giving me the opportunity to come to school. I would also like to give thanks to the instructors and my friends for all their help. Stacey Hathaway

Mrs. Robinson, all your help, words of encouragement, and your unending source of patience will never be forgotten. Thank you so much. Anissa Anderson

Suzanne Leggett and Karen Lloyd, thanks for always being such good friends and putting up with me. Karen Snow

Thanks to Dr. Kuder for always keeping me confused. Thanks to Sally for all the help in Clinical Labs. We couldn't have got through it without you. Mr. Bradford, thanks for all the trust and support. Melissa Teague

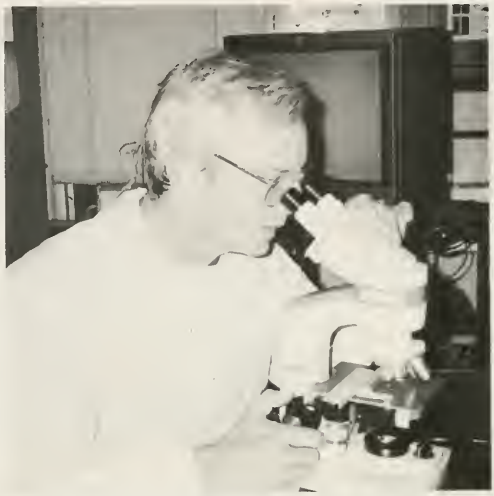
We have been through a lot together.

Karen stands watch over a friend.

David wonders which muscle Lori is talking about.

Okay, this will only take a minute.

Terri finds an interesting specimen.



I know it was here just a minute ago.

We know what we are looking for; it's just not here.

Louie and Paige pause to say "hi."

Karen comforts Rosalia while Felicia takes blood.

Kim explains the heart functions to Lynn and Dana.

First year students learn the muscles of the cat.

Karen and Stephanie working downstairs on one of our cats.

Second year students getting a close view in Ms. Robinson's lab.

ZOOM: A Zine With Zillions of Ideas About the Year!

This year really zipped by, didn't it? Between Martian Mania and the Dalmatian Invasion, we cheered the Clintons and surfed the world wide web. In a year that was Totally Tiger (Woods, that is), we were awed in Atlanta, and tickled by Elmo. Kerri Strug catapulted into history, Glenn Close made a dashing de Vil, and technology zoomed toward the 21st century — What made YOUR school year sensational?

KidZ across America have been busy working on projects for April 22, 1997 marking the 26th annual Earth Day!

The Olympic torch passed through 31 major US cities before the flame arrived at the games in Atlanta on July 19,1996.

Walt Disney Pictures from Shooting Star

Seeing SpotZ

1996-97 brought puppy love to the big screen as those adorable Dalmatians made a reBARKable comeback in a live-action movie 35 years after their animated story came out in 1961. A careful mix of high-tech mechanical and visual effects and live footage made 101 Dalmatians howl with success. Glenn Close liked the resultZ so much that she arranged to keep the costumes she wore as the FETCHing villain, Cruella de Vil.

K9 Starz

Black and White to Technicolor

OK, so you know 101 facts about those Dalmatians, but are you up to speed on the rest of your dog trivia? Match the picture of the screen star to its name. And if you're up to an extra challenge, number the dogz from past to present.

☐☐ *1. Toto is Dorothy's companion on both sideZ of the rainbow!*

☐☐ *2. A boy'Z best friend – Old Yeller makeZ a great pillow for Arliss.*

☐☐ *3. Big ProblemZ get solved when big dogZ – like Beethoven! — step in.*

☐☐ *4. Lassie saved her owner, Timmy, from all sortZ of scrapeZ while ruling prime time.*

Canine Classics

Wishbone, a small dog with a big hit television series has got kidZ everywhere itching to gnaw on classic books, canine style! From Charles Dickens' Oliver Twist (renamed "Twisted Tail"), to Native American Folktales ("Dances With Dogs"), Wishbone's got us slobbering all over great stories. Before long, even the evil Sheriff of Nottingham will be scratching Wishbone's belly!

Back to Washington DC again — did you know that America's First Pet is a cat? Socks is the Clinton's feline family member.

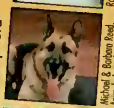
K9 REPORT CARD

This is your chance to play teacher. Which dog do you think makes the grade when it comes to obedience training? Match the dog to the bone.

1. Poodle

Robert Pearcy, Animals Animals

D+ Short on brain cells.



2. German Shepherd

Michael & Barbara Reed, Animals Animals

A+ This dog is groomed for success.

3. Chihuahua

Robert Pearcy, Animals Animals

C SpotZ but no smartZ.

4. Dalmatian

Walt Disney Pictures from Shooting Star

A Police think this dog is a Top Cop.

Answers: 1. A-1 2. D-3 3. C-4 4. B-3

Puppy Tip

Is your family planning on adopting a puppy? It's important to match the puppy's personality with your family. Do your homework on the best breed for you!

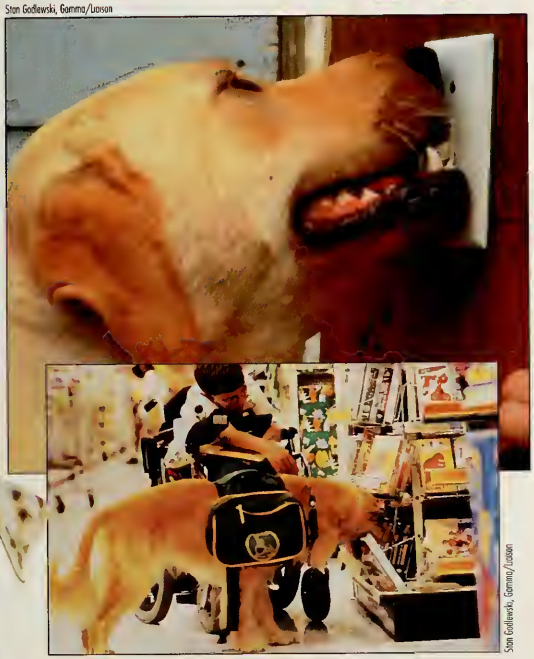
Walt Disney Pictures from Shooting Star

©1995 Big Feats Entertainment

Hot Diggity Dawg!

This year, Wishbone was watched by millions on TV and the Dalmatians hit the silver screen. But there's no doubt that dogZ have been acting longer than 96-97 – they've been show-stealers for decades. Still, there's more to canines than their star quality. They save lives, lead the blind, and help people in zillions of ways.

Walt Disney Pictures from Shooting Star



Stan Godlewski, Gamma/Liaison

Stan Godlewski, Gamma/Liaison

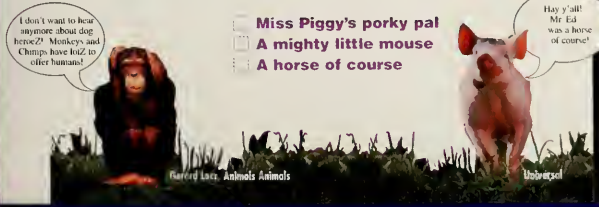
DogZ on Duty

The real stars in the K9 community are not the ones whose names you'd recognize — instead they are dogs specially trained to help people with disabilities. You've probably heard of guide dogs for blind people, but did you know that dogs are learning new skillZ every day that help all kinds of people? DogZ can do lotZ of things — from turning the lights on to helping with the shopping. How's that for a show stopper?

Talk Test

Between talking pigs like Babe, and thinking dogs like Wishbone, TV and movies are brimming with unusually talented animals. Francis the Talking Mule started the Trend in the 1940's and Mr. Ed had all the answers in the 1960's. What type of animal was Mr. Ed?

- Miss Piggy's porky pal
- A mighty little mouse
- A horse of course



Chimps are learning to help people too! In fact, sometimes they can do more than dogs because they supply handZ on help — they have fingers and a thumb for picking things up.

OOM in Primate PartnerZ

Monkeys are learning to help people too! In fact, sometimes they can do more than dogs because they supply "handZ on" help — they have fingers and a thumb for picking things up instead of having to use their mouths. This year, monkeys have been lending a helping hand to people who can't use their armZ on their own.

Frantis Demange, Gamma/Liaison

Stephen Ferry, Gamma/Liaison

Super Bowl XXXI - who did you root for?

Golden Glory

An Olympic year is always jam-packed with fantastic sportZ memories. What'Z really cool about this year is that TEAMS were in the spotlight — both the men's and women's basketball Dream Teams, women's soccer, softball, and gymnastics all won gold. Tom Dolan and Amy VanDyken blew the competition out of the water to take home swimming gold, and Carl Lewis and Jackie Joyner Kersee leaped to the medal stand in the long jump. But can we still be craZy for sportZ when we're in between Olympic years? Of course! Many Olympic athletes go on to become pro sports starZ. In fact, there were more opportunities for amateurs to turn pro this year than EVER before!

AP/Wide World

© 1996, USA Today Reprinted with permission

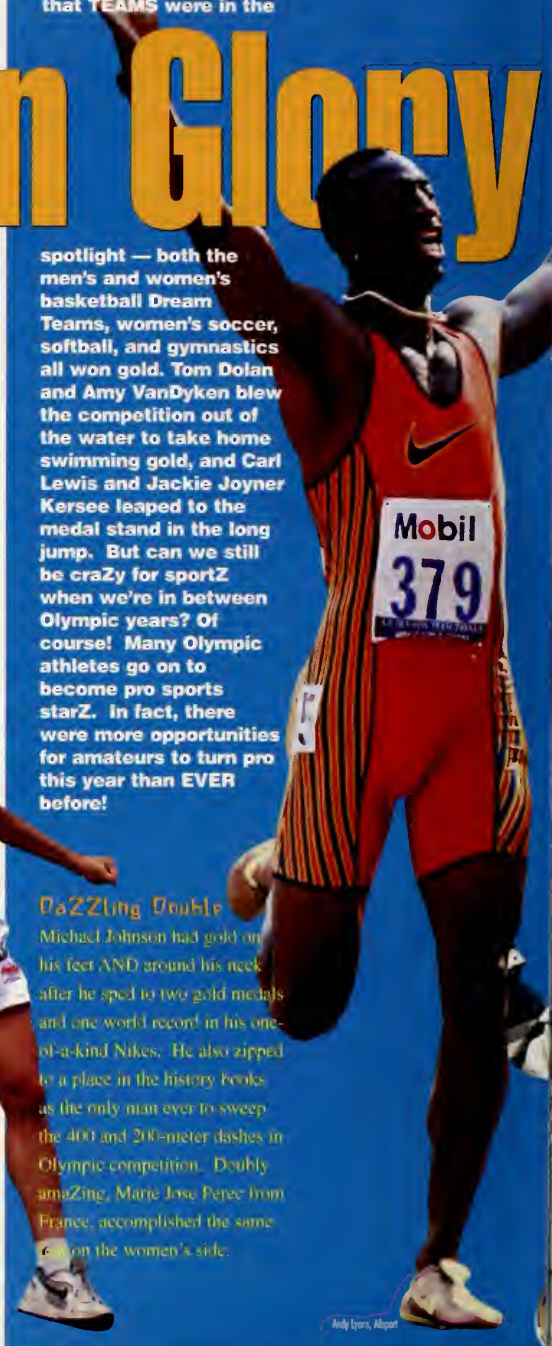
Flipping for First

This year, for the first time ever, the U.S. Women's gymnastics squad won the team gold. All eyeZ were on Kerri Strug as she zoomed down the runway for her last vault. Despite her sprained ankle, she managed to nail the landing, and the U.S. team landed on top of the medal stand. What a gutZy performance! Her coach, Bela Karolyi thought so too.

Did you know that the 2000 Olympic Games in Sydney, Australia, will be a centennial too? It'Z true! Women began competing in the games in 1900, so 2000 will be the gals' 100th anniversary.

44 Gold Medals
+ 32 Silver Medals
+ 25 Bronze Medals
= 101 USA Medals

AP/Wide World



Andy Lyons, Allsport

DaZZling Double

Michael Johnson had gold on his feet AND around his neck after he sped to two gold medals and one world record in his one-of-a-kind Nikes. He also zipped to a place in the history books as the only man ever to sweep the 400 and 200-meter dashes in Olympic competition. Doubly amaZing, Marie Jose Perec from France, accomplished the same feat on the women's side.

AP/Wide World

AP/Wide World

Yankee Fever

The heat was on the New York Yankees and MVP John Wetteland, before they rallied against the Atlanta Braves to win the World Series this year. New York baseball fans were sweating it out in the stands since it had been 20 years since the Yankees held the top honor in 1978.

From Athens to Atlanta

The very first modern Olympic Games were held in Athens, Greece in 1896. That means that the Atlanta games marked 100 years of Olympic competition. The opening ceremonies in Georgia were all about remembering and celebrating the history of this meeting of athletes from all over the globe.

J.D. Cuban, Allsport

Doug Pensinger, Allsport

Move Over Michael!

Women basketball players rebounded off their golden success in Atlanta. This year two new pro organiZations for women were formed, the American Basketball League and the Women's NBA. Suddenly Michael Jordan isn't the only one who can slam-dunk with style — 6'5" center, Lisa Leslie, who once scored 101 points in the first *half* of a high school game, and her teammates can jam with the best of 'em.

Totally Tiger

During his second year at Stanford University, golf whiZ, Tiger Woods, decided that it was time to move out of the amateur rankZ. In his first year on the Pro Golf Tour, Tiger won two major tournaments. How'Z that for making par?

Hottest Game on Ice

Hockey has become "the coolest game in town" as more kidZ – boys AND girls — are playing – even in places with warm climates! Cool as ice, the U.S. National Team beat their northern neighbors from Canada this year.

Just Look At That Baby-Face!

AP/Wide World

Even pro sports athletes were kidsZ once. This lord of the ring "floated like a butterfly, stung like a bee." He also lit the flame at the Atlanta games. Can you identify him? Check the correct answer:

AP/Wide World — Archive Photos — Andy Lyons, Allsport

- Michael Jordan
- Muhammad Ali
- Michael Johnson

Answer: Muhammad Ali

Russel Rondeau, Allsport

Can You Say G'day?

The world will meet "Down Under," as Australia is nicknamed, for the next summer games. Famous for its amaZing opera house, Sydney is called the "model city for the future." Olympic planners are taking that title to heart, making sure the 2000 games will be good for the environment — there will be reusable tickets, buildings made from recycled materials, and even a solar-powered athletes' village!

3 2 1 Blast Off!

We all know that the moon isn't made out of cheese, but did you know that water (ice) was discovered on the moon's surface this year? Speaking of far out, did you experience the lunar eclipse this year?

We Have Lift Off...

Do you know what NASA stands for? It's the National Aeronautics and Space Administration. NASA was formed in 1958 and continues today to explore space for peaceful and scientific purposes. Here are some of the important events in NASA hiZtory.

- In 1958, the U.S. launched the Explorer 1 satellite to zoom out for a better look at our planet.
- In 1961, Alan B. Shepard became the first American in space.
- Apollo 13 made history when the crew survived an explosion, and made it safely back to Earth in 1970.
- Sally Ride became the first American woman, and Guion Bluford became the first African-American man in space when they were crew members of the space shuttle Challenger in 1983.
- Shannon Lucid performed experiments on the Russian space station Mir in 1996.

President **Bill Clinton was re-elected in 1996 and is striving to build a "Bridge to the 21st Century."** Shannon Lucid **blasted back to Earth after spending over six months in space, and scientists discovered a fossil that's sparking thoughts about zooming in on Mars. And speaking of tomorrow, America's First Daughter, Chelsea Clinton, is getting ready to graduate from high school! No wonder the newZ is studded with futuristic features!**

Party in the Stars

Are YOU up for an orbital adventure? In 2005, you could be cruising the galaxy aboard X33 — a new shuttle design that will transport 100 people to space at one time.

If'Z in Your HandZ

You turn on your computer and you've got E-mail from NASA. "X33 is your big chance to make aerospace history," they tell you. "If you can come into training right now, you can be a member of the very first crew on this way-cool, brand new shuttle!" What do you say? Talk it over with your buds, and check a box to send your response.

- ☐ No way! **My attitude is better in this atmosphere.**
- ☐ Maybe. **Send me my space suit and I'll see how it fits.**
- ☐ Take me to the Stars! **I'll pay for my ticket if I have to!**

Mars Rocks!

Born 4.5 million years ago, a rock labeled ALH84001 has scientists asking questions about life in the universe. ALH crash-landed 13,000 years ago in the deep freeZe of Antarctica, and stayed there until researchers spotted in 1986. It was easy to see because it had a bright green glow in the ice. Kryptonite? Not quite. ALH is one of 12 Mars rocks on Earth. This year, NASA scientists believe to have discovered Martian micro-fossils in the rock. Could life have existed on Earth's neighbor planet 4,000,000,000 years ago? What do you think?

Jet Propulsion Laboratory

Everything but X-Ray Vision

Sometimes called the "space superwoman" by her NASA pals, astronaut Shannon Lucid, age 53, traveled **67,000,000** miles and orbited the Earth a whopping **3,008** times. She also touched-down into the record books by spending **188 straight days** in space. Even though this was the longest of her journeys, Shannon is far from inexperienced when it comes to flight — she has been on four other shuttle missions, and long before her NASA days, she earned her pilot's license at age 17.

Attention Earthlings! The *Counting Crows* say "we all wanna be big, big stars," but do you know why? The main difference between stars and planets is that stars produce their *own* heat and light, whereas planets do not!

Were YOU born to inhabit the White House?

"Ask Not What Your Country Can Do for You," said John Fitzgerald Kennedy in his famous inaugural address in 1961. Young Bill Clinton followed his advice and asked what HE could do for his country and decided that he wanted to be preZ himself.

Four More YearZ

The first family had lotZ to smile about this year. America's 42nd president, William Jefferson Clinton was elected to a second term in 1996. He defeated Republican candidate, Bob Dole. Both the President and Mrs. Clinton are focused on zooming our country into the 21st century. The First Lady, Hillary Rodham Clinton, even asked kidZ what they thought about building classrooms for the future. Guess with the Clintons still in Washington, the White House kitchen will need a 4-year supply of peanut butter and banana sandwiches — Mr. President's favorite snack.

Are you a 21st Century WhiZ Kid?

Do you have a cyber clue? See how you do on this techno true and false quiZ.

1. The World Wide Web is a giant hang-out for spiders. ☐ T ☐ F
2. Snail Mail is communication for the world's slowest animals. ☐ T ☐ F
3. Web surfing is something your family might be mad at you for doing in the bathtub. ☐ T ☐ F

ZOOM in

24 HourZ with Chelsea

Think your life is totally different than Chelsea Clinton's? OK, so you don't have your own body guard, a bedroom in the White House, OR own one of the country's most famous cats — but you may have more in common with the First Kid than you think. Chelsea's favorite subjects in school are history and science. When she's not in the Chemistry lab, she sits mat-side at school wrestling meets… gets a workout in ballet class (she had a role in the Nutcracker this year)… or just hangZ with her friends. And, yes, even if your parent IS PreZ, you still have to get home on time — do you think Chelsea's secret service people make sure she does?

Favorite ActivitieZ?

Jot down YOUR favorite subjects & activities of 96-97 below!

Match the zoomed-in snapshot of the year to its caption!

- **A.** A professor at the University of Chicago discovered a five foot long skull this year. It belongs to the world's largest dino – the Carcharodontosaurus.
- **B.** Killer whale Keiko packed up and left Mexico City to make a new home at the Oregon Coast Aquarium this year. With colder water, better diet and medical attention, The Free Willy film star has gained over 1,000 pounds since the move.
- **C.** We were so craZy about Dalmatians this year that we even ate chocolate bars made to look like their fur!
- **D.** The site of the Olympic Games in 2000 is famous for its opera house. It was even featured in the closing ceremonies in Atlanta.
- **E.** Homework, high-tech games, and even electronic notes to your friends – you can do it all if you can use a computer.
- **F.** Angel in the outfield? The Yanks' thought so. Jeff Maier, watching the game, caught a fly ball.
- **G.** There are only 50,000 of them left on earth – Asian elephants that is! This year Barnum & Bailey Circus built a conservation center to help this cause.
- **H.** No buttZ about it! Nickelodeon star Larisa Oleynik helped launch a no smoking campaign this year.
- **I.** We "stormed" the movie theaters in '96 to experience the special effects extravaganza Twister. What kind of weather did you see in your home town this year?
- **J.** Michael Jordan Space Jammed his way to the big screen when he co-starred with Bugs Bunny in this animated adventure.
- **K.** Kerri Strug didn't let her sprained ankle get in the way of landing her final vault in Atlanta – and she has gold to show for it!
- **L.** Move over Keanu! Larry Champaign III was the hero in a real-life version of Speed, when he took control of a school bus after the driver suffered a stroke.
- **M.** Mars AttackZ! Movies about Martians and the fossil discovery got us asking lotZ of questions about the Red Planet.
- **N.** Rockin' rhythms charged up 96-97. From the percussion dance team, Stomp, to the Macarena, the latest sensation, the whole world was really moving!

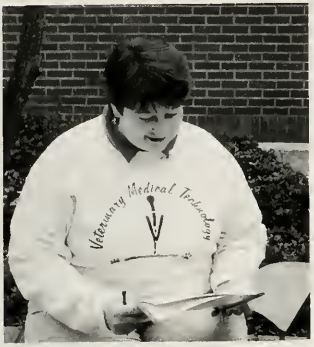
Stephanie studies over lunch.

Lynn distinguishes between the different vertebrae.



Ann takes advantage of a nice day.

Michaela finds Ms. Robinson's lab a useful place to study.

Wherever do my notes end?

It is good the library doesn't charge admission.

Stephanie reviews her flash cards while Karen looks through her notes.

Blowfly strike . . . see myiasis . . . see Calliphoridae . . . Calliphoridae see Blowfly strike. The dictionary mind game.

The Class of 1997

@*!?# Happens

Thank you Mom and Dad for all your support and encouragement throughout the years — I love you both! To Melissa, thanks for your friendship; and to Robert, your understanding, caring and love have meant everything to me — I Love You!!!

Kelly Nicole Horton

I send a big THANK YOU to all my family, friends, classmates, instructors for all your support, but especially to MAMMA, DADDY, and JEREMY for standing by me through the rough times. You all believed in me; therefore, I now believe in myself. I love you all.

Paula

I'd like to express my appreciation to my family and good friends who always help me evaluate myself and my decisions. Thank you all. I'd also like to thank my instructors at CHESS for their patience and all the knowledge they helped me gather. Let's never forget about the school's animals — Without them the program could never be as valuable as it is. To my classmates, the best of luck to all of you. To Wildfire and all my wonderful pets, you are the greatest stress relievers. To Abbey, "Our souls survive this death" (Ovid). To my Freaky, sharing my life with you has made me complete. Let's get out of here!

Michaela

I would like to say thank you to Mom, Dad, Amy, Michaela, and Rochelle for helping me make it through these last two years. Without them I wouldn't have moved to NC, went to CCCC, or had so many fun "study" sessions! Thank you so much!

Karen Baxter

A special thanks to all the instructors for opening up a whole new world to me, I aprreciate all your help. Thanks to Michaela for helping me stay in the "STUDY MODE" and for all the great times. Thanks Karen and Rochelle for making life at the dorm fun. I'll miss everyone and hope we all cross paths once again!!

Amy Decker

Class of 1998

Class of 1999

Kristina, Karen, Amy, and Rochelle

BIG BROTHER, SISTER AND LITTLE BROTHER, SISTER

1st and 2nd year students having fun

2nd year students talking

1st and 2nd year students

2nd year students hanging out

REACH FOR THE SKY

Today we graduate
and realize that our time was well spent.
As we receive our degree
we'll think of how fast the time went.
When the times got stressful
we pulled together and worked like a team.
We overcame our differences
just to fulfill our dream.
We all have our own reasons
for being here today.
We've had our ups and downs,
but did not let them stand in our way.
We all shared the laughter,
and held someone when they cried.
Nothing ever held us back,
and we never lacked the urge to try.
We have many memories and many friends
whom we cherish in our hearts.
So, don't look at today as the end,
for today our new lives start.
So, as we cross that stage
our heads can be held high.
For after today,
we will never be afraid to reach for the sky.

Stephanie Anspach

"GOOD-BYE"

As we look around us,
we see the friends we have made into siblings.
We see our teachers that have not only been
our mentors, but our friends.
As we look around us, we see a family...

OUR FAMILY.

We've had our good times and our bad times
and, of course, our in betweens.
Yet we've always had someone to stand right
by our side.
Now as we look, we realize that it's time to
spread our wings and fly into the unknown
part of our lives.
For as a family, we have grown and matured
to be able to soar on our own.
As we look back on our hard times, we know
that the hardest time of all will be the
time that we must all say..."Good-bye."
